

Breaking New Ground in the Science-Religion Dialogue Workshop

The University of Texas at Austin, SAC 2.302

April 10, 2015 8:30 – 5:00

In this workshop we will present cutting-edge research on the science and religion dialogue. Topics of discussion will include the psychological foundations of religious and scientific beliefs, cognitive impediments to understanding science, ideological biases against science, biases against believers and atheists, and the portrayal of science and religion debates in the media.

Organizer:

Dr. Cristine Legare, Department of Psychology

Invited speakers:

Dr. Paul Harris, Harvard University

Dr. E. Thomas Lawson, Queen's University Belfast

Dr. Will Gervais, University of Kentucky

Dr. Andrew Shtulman, Occidental College

Dr. Tania Lombrozo, UC Berkeley

Dr. Azim Shariff, University of Oregon

Dr. Jesse Preston, University of Illinois

Dr. Bastiaen Rutjens, University of Amsterdam

Dr. Kelly James Clark, Grand Valley State University

Dr. Robert McCauley, Emory University
